Hypnos Luxury Wool Bedding Bundle

Summary

Using natural British wool, Hypnos offers this Luxury Bedding Bundle. Wool is scientifically proven to give 25% deeper, more regenerative sleep, by adapting to the temperature of the individual. Its hypoallergenic properties and allergy approval aid an exceptional Sleep Experience.

Natural Wool Duvet

Wool cycle

This breathable material has the natural ability to regulate itself, helping to keep your guests both warm in winter and cool in summer. Wool draws moisture away, regulating the guest's body temperature and transforming how well they sleep, delivering a superior Sleep Experience.

Natural Wool Pillow & Protector

Wool cycle

Wool pillows naturally draw moisture away from the face and neck, keeping the guest comfortable.

The natural wool-filled pillow protector further enhances both hygiene and quality of sleep, allowing guests to wake even more refreshed.

Natural Wool Mattress Protector

Wool cycle

Wool mattress protectors are the most powerful tool in regulation of temperature and are particularly effective in keeping your mattress clean and fresh because they draw moisture away from the mattress and provide a hypoallergenic barrier against dust mites.

Wool is the only sustainable, renewable and biodegradable fibre in the world. Our Luxury Wool Bedding Bundle is a truly green bedding solution.
