THE MOST COMFORTABLE BEDS IN THE WORLD

The Design Edit

# Making the most comfortable beds in the world for over 100 years

Welcome to Hypnos, we are a family owned business that has perfected our craft for over a century. All our beds are handmade by our skilled craftspeople in our own factories in the UK.

We believe we have a responsibility far greater than making luxury beds, because we are in the business of sleep - one of the most precious commodities in life, ensuring our good health and happiness.

As holders of a Royal Warrant since 1929, we are known for making the most comfortable beds in the world. It is important we all leave a lasting legacy for future generations and inspire people to sleep sustainably by creating comfort with integrity. Therefore, we have pioneered the use of responsibly sourced, sustainable natural materials that provide ultimate comfort, as we believe sleep shouldn't cost the Earth.

# Sleep Matters

Having a good night sleep really matters, it recharges our body and mind, so has a direct impact on our wellbeing. At Hypnos we take sleep very seriously, we even have our own resident sleep specialist, to offer advice on how you can improve all aspects of your sleep.

We would love to eliminate sleep deprivation, which is becoming a worldwide problem at a time when our lives are increasing busy, and we are constantly connected to tech.

The effects of poor sleep on our immune system, mental health, weight, and general wellbeing are well-known, but did you know poor sleep also effects our skin and how we look?

Beauty sleep, isn't a myth. When we sleep soundly, our body recharges, repairs and restores. Recent research has found that a good night's sleep not only makes us feel energised, but repairs our skin, reducing fine lines and making us look younger.

Sleeping soundly is essential in all stages of our lives, but even more vital for children. Studies have shown a good night's sleep improves attention span, behaviour, learning, memory, and overall mental and physical health. Sleep is the time for restoration and for children's bodies to recharge and retain the information they have learned throughout the day. So, investing in sleep really matters, whatever age you are.

# Sleep Shouldn't Cost the Earth

We believe the best way to protect our environment is to use materials that are truly sustainable and recyclable, so we source responsibly, sustainably and with traceability.

A good night's sleep shouldn't cost the Earth, so every bed we make is not only designed for ultimate comfort; it is also recyclable, so never needs to go to landfill. This long-standing ethical approach is part of our Hypnos DNA. We were the first bed manufacturer in the world to become carbon neutral, an accolade we achieved over a decade ago, and are extremely proud of.

# A Labour of Love

Every Hypnos bed is handmade with care and attention by our skilled craftspeople. We are proud to be a British manufacturer and are a family business in every sense, as generations of experience go into making your Hypnos bed. Layers of comfort are handstitched in place and each mattress is meticulously checked before being carefully wrapped in our unique bio-plastic packaging.

We love what we do, and continue to innovate, pioneering the use of sustainable materials that deliver ultimate comfort. With over 100 years' experience in designing and manufacturing beds, we know a lot about providing a great night's sleep. So, you can sleep soundly, knowing that every material and every process used to handcraft your luxury bed meets our exacting standards.

# The Science behind the most comfortable beds in the world

It's not surprising that a lot of science goes into crafting the most comfortable beds in the world. Every detail is considered, from the materials used to the final construction.

Our ReActivePro™ pocket springs are expertly engineered to provide the utmost comfort, night after night. Each pocket spring moves independently to contour around your body shape and sleeping position, ensuring you are fully supported as

you sleep. Our unique edge-to-edge systems provide an extra level of endurance to your mattress, with meticulous side stitching sewn by skilful hands. Breathable, natural, and sustainable fibres are carefully selected to regulate your body temperature. These are hand tufted into place, creating a sumptuous sleep surface you want to sink into. With every detail considered, you can be assured that your Hypnos bed is as durable as it is beautiful.

# Selecting and sourcing materials responsibly

As a pioneer in sustainable and ethical bedmaking, we believe sleep shouldn't cost the Earth. Hypnos are the first carbon neutral bedmaker in the world, an accolade we achieved over a decade ago.

Our approach has always been to make a positive environmental and social impact, investing in responsible innovation, nature-based circular designs, and initiatives to combat climate change. We only use natural and sustainable materials, including wool, cotton, flax, hemp, and natural

latex, working in partnership with farmers to ensure materials are certified and traceable to their origins. Our mattresses are free of chemical-based foams and are recyclable, so nothing ever needs to go to landfill.

Hypnos beds do more than providing a good nights sleep, they are also good for our planet. By working in partnership with the Eden Project we have reinforced our environmental and social commitment to building relationships between people and the natural world.

# Choosing your perfect bed

We all know that good night's sleep improves our health and wellbeing. Selecting the right mattress for you, is a key consideration both in terms of comfort and practicality. And, choosing the right divan can provide useful storage, whilst your headboard will make the ultimate design statement.

Here are our three simple steps.

- 1.** Your mattress is never seen but is the most important element in creating your perfect sleep experience. Our design edit, is a capsule collection of our finest mattresses at differing comfort levels, materials, and turn options. All mattresses are available in multiple sizes to suit your room.
- 2.** Divans come in a choice of styles, heights, and storage options. You can select fabric from the Hypnos collection, or we can check the fire rating of a fabric you have already chosen. Useful storage ideas range from drawers to ottoman style beds. Each divan is finished with feet, legs, or castors.
- 3.** Make a style statement with your headboard as it's often the focal point in the bedroom. We have selected a range of different styles in our design edit. Each one can be finished in a fabric from the Hypnos collection, or we can verify the fire rating of your specified fabric.

# Selecting beds for every room

Whether you are choosing a bed for your master bedroom, a child's room or somewhere for your guests to stay, you can be assured that every bed is handmade by our skilled craftspeople with the same love and care. Our mattresses, divans and headboards come in a choice of sizes, providing ultimate flexibility in comfort and style.

Getting a good night's sleep is important for our health and wellbeing throughout our lives. Studies have shown a good night's sleep is even more vital in younger years as it improves learning as well as overall mental and physical health. Sleep is the time for restoration, so investing in sleep really matters, whatever age you are.

# Our mattresses

Every Hypnos mattress is handcrafted with a generous blend of natural and sustainable fillings, our unique pocket spring system, and covered in a range of beautiful sleep surfaces. Our design edit includes a range of comfort and support levels, so you can select the perfect mattress for you.

# Divans and Feet

Hypnos divan bases come in a range of styles and storage options which you can customise to suit your lifestyle. Each divan is handcrafted from FSC® timber, upholstered in a fabric of your choice, and finished with either castors, feet, or legs. Our platform divan provides a highly supportive base for a firmer feel, whilst a sprung base works

in harmony with your mattress to provide an enhanced comfort feel. Shallow divans provide a sleek look, whilst SuperStorage™ divans provide useful extra space, and deep divans can be made with your chosen drawer configuration. Our Flexibase can be used for additional storage or an Extrabed

Divan	Height	Sprung Base	Platform Top	Drawers	Skirt	Castors	Feet	Legs
Deep sprung divan	35cm	●		●	●	●	●	
Deep platform divan	31.5cm		●	●	●	●	●

## Flexibase

We would recommend using our Flexibase should you want to store an Extrabed which can be particularly useful in a children's bedroom for when they invite a friend to sleepover.

## Storage Options for Deep Divans

Standard-size drawers can be combined with smaller continental-size drawers for ease of opening next to bedside tables or winged headboards. These drawers have been designed to accommodate lightweight items, such as pillows, bed linen or clothing. We recommend a maximum weight of 20kg per standard drawer and 10kg per continental drawer.

# Finishing Touches

At Hypnos, we consider every detail to enhance your sleep experience. Our sumptuous collection of wool bedding and pillows provide ultimate comfort and luxury. Wool is the world's original super fibre. It is naturally antibacterial, sustainable, renewable, and biodegradable, as well as being naturally flame resistant. Wool helps regulate body temperature by wicking away moisture to provide the perfect night's sleep, whatever the time of year.

## **WOOL PILLOW**

Our wool pillows can be customised to you. Inside the pillow you'll find a filling of natural wool clusters, which we call 'wool balls'. If you like a softer pillow, you can pull the clusters apart adding air and plumping up your pillow. If you like a flatter pillow, simply remove a suitable quantity of wool. And if you like a deeper firmer pillow, we offer the option to purchase extra wool balls to stuff into your pillow.

## **WOOL PILLOW COVER**

Our 100% British Wool and pure cotton pillow cover protects against dust mites which cannot survive in wool.

## **WOOL MATTRESS PROTECTOR**

Much like the Wool Pillow Cover, the Wool Mattress Protector helps protect your mattress against dust mites making it a more hygienic and clean sleeping environment.

## **WOOL FILLED COMFORT LAYER**

Layers of sumptuous British wool and smooth, soft cotton make for a truly comfortable topper and utterly relaxing sleeping experience.

## **ORIGINS DELUXE COMFORT LAYER**

Sumptuously soft, this quilted comfort layer contains over 1.5 fleeces of British wool for an enhanced sleep experience.

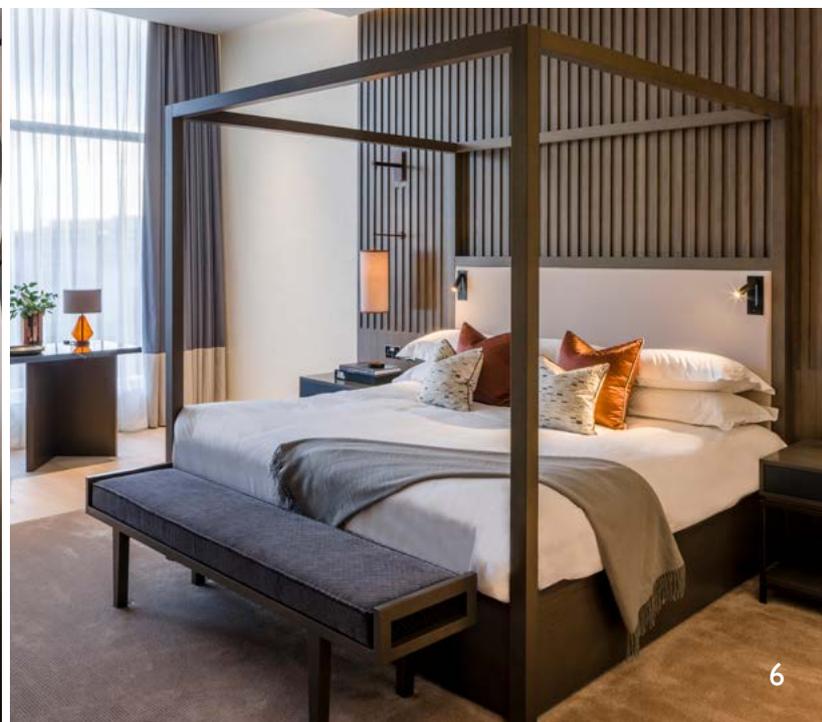

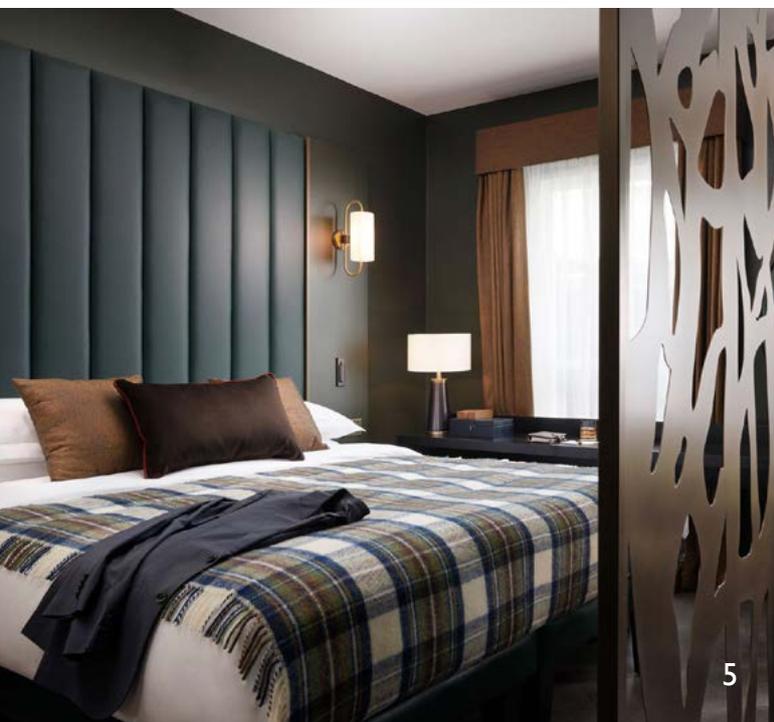

## **ORIGINS SUPREME COMFORT LAYER**

An extra pillow of natural comfort, with luxuriant Talalay latex wrapped in up to 3 fleeces of British wool, for the ultimate sleep experience.

## **ORGANIC COMFORT LAYER**

A luxurious layer of natural Talalay latex is encased in organic wool to create our most luxurious topper. Certified by the Soil Association and endorsed by the Eden Project, very special care is taken by farmers and growers to produce pure, high quality fibres using methods that work with nature.
