

**HYPNOS**  
THE MOST COMFORTABLE BEDS IN THE WORLD

CASE STUDY

## BILLESLEY MANOR HOTEL & SPA

Recently refurbished, the 16th Century, four-star Billesley Manor Hotel and Spa boasts 71 beautifully designed bedrooms and sits in 11 acres of magnificent countryside just outside the medieval town of Stratford-Upon-Avon.

Combining 16th-century charm with modern luxury is not the only thing this alluring Elizabethan Manor is famous for. Legend has it that in 1599, Shakespeare penned his comedy 'As You Like It' at Billesley Manor; having married Anne Hathaway at All Saints church which sits in the grounds some years earlier.

Billesley Manor really is the perfect peaceful sanctuary from the outside world. Each guest room and suite has been designed with luxury, style, and comfort in mind. So, when it came to selecting the beds, only the best would do.

*“As a hotel, sleep is one of the most important components of our guests’ stay, and so it was important that we got it right. Hypnos Contract Beds were selected and asked to supply their most luxurious mattress, the Lansdowne Cashmere with Classic Divan Bases and Flexi Bases. This specification provides ultimate comfort and luxury for our guests and supports our mission to provide the very best in sleep in the UK.”*

Stephen Fearnley FIH,  
General Manager, Billesley Manor Hotel and Spa

As the go-to name in sleep comfort, Hypnos Contract Beds is trusted to deliver the all-important component for perfect nights' sleep at hotels around the world. Hypnos believe in creating comfort with integrity and were the first UK bed manufacturer to become carbon neutral, an accolade achieved over a decade ago. In 2020 Hypnos received the prestigious Queen's Award for Enterprise for Sustainable Development.

Carolyn Mitchell, Sales and Marketing Director, Hypnos Contract Beds adds,

*"We believe it is incredibly important to opt for natural fibres where possible. Our Lansdowne Cashmere mattress combines wool and cashmere for the highest degree of comfort and luxury. Our mattress design allows independent movement of each pocket spring, meaning the mattress adjusts to the sleeper's body shape. At the same time the natural fibres help regulate body temperature to create the perfect climate for quality sleep. We are delighted that Billesley Manor chose to provide their guests with the ultimate sleep experience."*
