Hynos Luxury Wool Bedding Bundle

Summary

Using natural British wool, Hynos partners with the Woolroom to offer this Luxury Bedding Bundle. Wool is scientifically proven to give 25% deeper, more regenerative sleep, by adapting to the temperature of the individual. Its hypoallergenic properties and allergy approval aid an exceptional Sleep Experience.

Natural Woolroom Duvet

This breathable material has the natural ability to regulate itself, helping to keep your guests both warm in winter and cool in summer. Wool draws moisture away, regulating the guest's body temperature transforming how well they sleep delivering a superior Sleep Experience.

Natural Woolroom Pillow & Protector

Wool pillows naturally draw moisture away from the face and neck, keeping the guest comfortable.

The natural wool-filled pillow protector further enhances both hygiene and quality of sleep, allowing guests to wake even more refreshed.

Natural Woolroom Mattress Protector

Wool mattress protectors are particularly effective in keeping your mattresses clean and fresh because they draw moisture away from the mattress and provide a hypoallergenic barrier against dust mites as well as enhancing the sleep supporting qualities of a duvet.

Wool is the only sustainable, renewable and biodegradable fibre in the world. Our Luxury Wool Bedding Bundle is a truly green bedding solution.
