HYPNOS
THE MOST COMFORTABLE BEDS IN THE WORLD

EDEN PROJECT HARMONY MATTRESS

Hypnos have been partners with the Eden Project since 2019, and have an aligned vision on making living sustainably a reality. The Eden Project Harmony mattress marks a new era in creating sustainable mattresses. It is crafted with responsibly sourced plant and fruit-based fibres, and 100% British wool certified to the Responsible Wool Standard to support the wellbeing of people and the planet.

Many of the innovative plant fibres used in this mattress can be found growing in the Biomes at the Eden Project in Cornwall, including bananas, pineapples and oranges. Crafted for comfort and to help regulate body temperature, the breathable layers ensure hotel guests of a great night's sleep. This sumptuous 29cm deep mattress is covered in a beautiful Hypnos ticking made from sustainably sourced cotton, to provide a luxurious, breathable, and hygienic sleep surface.

The ReActivePro™ pocket spring core is specially engineered to deliver utmost comfort, time after time. eOlus™ Precision made from recycled plastic bottles that otherwise would have gone to landfill.

The Hypnos edge protection system provides contract specification edge-to-edge support. Made to BS7177 Medium Hazard (Crib 5) fire safety standard.

Designed to be recycled at end of life
