

HYPNOS
THE MOST COMFORTABLE BEDS IN THE WORLD

HOSPITALITY
ORIGINS COLLECTION

WOOLSLEEPERS ELITE

The Hospitality Origins Collection presents a new era in delivering sustainable sleep solutions for the hospitality sector: We are experts in sleep, with over 100 years' experience in designing and manufacturing beds. As a family owned business, we believe it is essential we leave a lasting legacy for future generations - our purpose is to inspire people to sleep sustainably, creating comfort with integrity.

We have been carbon neutral for over a decade by taking enormous care in how we design and make our contract specification beds whilst protecting our planet. Every material used in making our Hospitality Origins Collection is fully sustainable and recyclable, meaning that our beds never need to go to landfill.

Our handcrafted and hand-finished pocket sprung Woolsleepers range of mattresses have been designed for an ultimate sleep experience and with the utmost care for our environment.

Eleven layers of comfort, enclosed in beautiful unbleached, naturally FR rated woven cotton and viscose ticking.

- 1 A layer of 100% British wool from Red Tractor assured farms
- 2 Additional layer of 100% British wool from Red Tractor assured farms
- 3 Adaptiv™ comfort springs
- 4 100% British wool from Red Tractor assured farms
- 5 100% Swaledale British wool from Red Tractor assured farms
- 6 ReActivePro™ 8 turn pocket spring core with edge-to-edge support

Our 150cm Woolsleepers Elite mattress contains 16.3kg of 100% British wool from Red Tractor assured farms, (equivalent to over 8 fleeces).

5 year guarantee on Woolsleeper mattresses

With Triple Edge Protection™

Our Triple Edge Protection™ provides true edge-to-edge support. Two flat frames on the underside and top of the mattress, nestle up to four rows of higher density springs on both sides of the mattress. These are secured in place by two layers of active stiffening sheets to create our contract specification triple edge protection.

WOOLSLEEPERS ELITE MATTRESS CONTENTS

1400 ReActivePro™ 8-turn pocket springs

Hynos ReActivePro™ pocket springs are engineered with 8 active turns providing our clients an added assurance that each mattress has been designed to deliver ultimate comfort to their guests, time after time.

Hynos Triple Edge Protection™

Our Triple Edge Protection™ provides true edge-to-edge support. Two flat frames on the underside and top of the mattress, nestle up to four rows of higher density springs on both sides of the mattress. These are secured in place by two layers of active stiffening sheets to create our contract specification triple edge protection.

16.3kg of 100% British wool from Red Tractor assured farms

Pure wool is the super fibre and ours is fully traceable back to the farm. Wool is naturally antibacterial and incredibly breathable. It responds to fluctuations in body temperature by wicking away moisture, to provide the perfect night's sleep whatever the time of year.

Swaledale British wool from Red Tractor assured farms

Pure Swaledale wool pad from Red Tractor assured farms provides natural support above the pocket springs.

3000 Adaptiv™ comfort springs

Hynos Adaptiv™ springs are designed to provide an extra layer of comfort and luxury by flexing to individual body shapes.

Unbleached Cotton and Viscose, naturally FR rated ticking

A beautiful breathable sleep surface woven from sustainably sourced, unbleached cotton and viscose. The BS7177 Medium Hazard (Crib 5) fire safety standard, is met by applying a natural M-Pure FR treatment without having to rely on synthetic flame-retardants.

Chrome vents

To aid breathability within the mattress helping to keep the guest cool.

Horizontal padded handles

For ease of mattress positioning on the bed base.

Traditionally hand tufted with wool tufts

Finished by hand, each tuft secures mattress fillings in their correct position to maintain a stable construction.

Seasonal turn mattress

Turn and rotate with the seasons to ensure longevity and continued comfort.

We deliver comfort with integrity by ensuring every material and process used in making Hypnos Contract Beds meets our exacting standards:

All wool used in our Woolsleepers mattresses is processed through the Woolkeepers®.

The Woolkeepers® initiative has established a better way of doing business for the farmers, for the wool processors and for companies like Hypnos, who value this precious fibre. It ensures integrity throughout the supply chain, as farmers are paid fairly, animal welfare is central and wool is processed to the highest standards. Partnering with the Woolkeepers® initiative has enabled us to craft a range of mattresses that are both luxurious and sustainable.

We use 100% British wool that is traceable to an assured farm. Giving us the confidence in excellent animal welfare and an opportunity to support our British farming communities by ensuring farmers get paid a fair price for their wool.

We source all our cotton through the Better Cotton Initiative to ensure it is farmed in a sustainable way.

All our viscose is derived from certified renewable wood sources using an eco-responsible production processes.

We use M-PURE, a natural flame retardant that utilises bio-based raw materials, that are environmentally friendly, biodegradable and 100% sustainable. It is made from milk proteins and glycerin.

All our polyester and eOlus™ fibre is accredited by the Global Recycled Standard (GRS). The goal of the GRS is to increase use of Recycled materials in products and eliminate the harm caused by its production.

All our polythene packaging is made from an innovative bio plastic using sugar cane, so is 100% recyclable and sustainable.
